PRESS RELEASE

Vegetigi Expands Global Reach with Innovative Vietnamese Fruit & Vegetable Products

HO CHI MINH CITY, VIETNAM — August 2026 — Vegetigi, a leading Vietnamese fruit and vegetable processor and exporter, is strengthening its position in the global food industry with a growing portfolio of IQF fruits, canned products, juices and concentrates, and innovative vegetable products developed for international markets.

With a strong focus on quality, food safety, innovation, and customer-oriented product development, Vegetigi serves customers across international retail, foodservice, ingredient, and private-label markets.

From Vietnam to Global Markets

Mango remains one of Vegetigi's key strengths. The company processed **9,320** tons of mango in 2025, including about 8,600 tons of IQF mango, building on 9,110 tons of total mango production in 2024. With 38% of its total volumes destined for the USA, Vegetigi continues to expand its presence among international buyers seeking reliable Vietnamese fruit suppliers.

Vegetigi's IQF mango portfolio includes Kaew mango, along with other tropical fruits such as dragon fruit, MD2 pineapple, and passion fruit. IQF technology allows Vegetigi to deliver convenient, year-round fruit while maintaining the natural color, flavor, and texture customers expect.

Innovation Beyond Frozen Fruit

Vegetigi is also developing products specifically adapted to changing consumer preferences.

Its **Kimchi in Glass Jars** offers a modern alternative to traditionally fermented kimchi. Made with a vinegar-based recipe, the product delivers a crisp, tangy flavor designed to be more approachable to Western consumers. With an 18-month ambient shelf life, it maintains its characteristic crunch while providing significant advantages for storage, transportation, distribution, and retail.

The company's portfolio also includes **canned quail eggs, canned mango, pineapple products, red dragon fruit product, passion fruit products, purple yam puree and crush**, and other processed fruit and vegetable solutions.

Quality Built for International Markets

Vegetigi operates with internationally recognized food safety and social responsibility standards, including **BRCGS Grade A+, IFS, FSSC 22000, KOSHER, HALAL, FDA, and SMETA** certifications and programs.

These standards support Vegetigi's commitment to consistent quality, traceability, food safety, and responsible international supply.

"Our goal is not simply to export Vietnamese agricultural products. We want to transform Vietnam's abundant fruits and vegetables into innovative, convenient products that meet the expectations of customers around the world."

As demand continues to grow for convenient, natural, and globally inspired foods, Vegetigi is positioned to connect Vietnam's agricultural strengths with evolving consumer and buyer needs worldwide.

About Vegetigi

Vegetigi is a Vietnamese fruit and vegetable processor specializing in **IQF fruits, canning, juices and concentrates, and innovative processed food products**. With a focus on quality, innovation, food safety, and international customer requirements, Vegetigi supplies markets around the world from Vietnam.
