Made In Nature and Debbas Gourmet: A Manufacturing Platform for Brands Ready to Grow

Fresno, CA — Made In Nature and Debbas Gourmet are showcasing their combined manufacturing platform at this year's tradeshow, offering decades of private label experience across organic snacks and artisanal confections.

Two Heritage Makers, One Platform

Made In Nature has dedicated 30 years to sourcing organic fruit, veggie, and nut-based snacks through direct global farmer partnerships, and creating renowned products such as the original Figgy Pops. Debbas Gourmet, with its 40-year legacy, brings hand-crafted chocolate artistry, private label development, and food science expertise. Together, they merge organic snacks and artisanal confections under one roof, driven by a shared commitment to quality, innovation, and sustainability.

A Manufacturing Platform Built for Your Brand

The manufacturing platform is designed to support brands at any stage, whether starting with an idea or scaling an existing product. It offers capabilities in trend forecasting, New Product Development, R&D, and packaging and labeling support to ensure products are retail-ready. For brands with existing products, the platform aids in expanding manufacturing capacity without compromising quality or consistency.

Decades of Private Label Partnership

Over the decades, Made In Nature and Debbas Gourmet have assisted partners in launching and maintaining private label products, collaborating with industry giants like Costco, Target, Trader Joe's, and Whole Foods. The team supports every development stage, from research and formulation to custom packaging and market launch, ensuring each product reflects the brand's unique identity.

Production and Packing Capabilities

The Fresno facility is equipped with state-of-the-art machinery, including enrobers, molding depositors, and panning machines, capable of producing a wide range of products such as enrobed items, truffles, chocolate barks, and signature items like BevBombs. On the snacks side, the facility produces organic, non-GMO, gluten-free dried fruits, nuts, and energy snacks, along with private label organic fruit bars and custom blends.

Customization and Innovation

Customization and innovation are at the heart of this platform. Recent product innovations include Sparkling Soda Tumbled Chocolates and Whiskey Pairing Bars, showcasing the range of possibilities. Nearly every product can be further customized to meet specific partner needs.

"Our platform is a testament to our commitment to quality and innovation," said Max Debbas, spokesperson for A'cappella Chocolate. "We are excited to offer brands the opportunity to grow with us, leveraging our extensive experience and state-of-the-art facilities."

Quality and Recognition

Products meet stringent standards, including BRC, CCOF Organic, Kosher, and FDA compliance, with the ability to offer clean label attributes such as gluten-free, vegan, allergen-friendly, and no-added-sugar options. Recognition includes "Best Product Line Overall" (America's Best Food Show), "World's Greatest Chocolate" (duPont Registry), "Innovators, Not Imitators" (Candy Industry Magazine), and the RCC Grand Prix d'Excellence for Innovation and Originality.
