Inalma and MIC Food Group® to Showcase Innovative Private Brand Frozen Foods and New United Flavors® Brand at PLMA Chicago 2026, Booth F4606

Honduras-based manufacturer and its sales and marketing partner, MIC Food Group®, invite retailers and private-label buyers to explore growth opportunities in the frozen aisle.

Chicago, IL – September 2026 — Inalma, a leading manufacturer of frozen plant-based and tropical food products in Honduras, will exhibit at the **Private Label Manufacturers Association (PLMA) 2026 Store Brands Marketplace**, taking place November 15–17 in Chicago, in the show's South Hall at Booth F4606.

Together with MIC Food Group®, its exclusive sales and marketing partner in North America, Inalma will showcase its portfolio of frozen plantain, cassava (yuca), and sweet potato products, while introducing the new United Flavors® Packer Brand line created specifically for private-label and food retail partners.

As consumer demand continues to include more globally inspired flavors, convenient meal solutions, and differentiated frozen offerings, retailers are increasingly seeking innovative products that can drive incremental category growth. Inalma's United Flavors® Brand was developed to help retailers own brand and private brand programs capitalize on these trends through versatile, high-quality frozen products that are ready for their pilot programs, customer testing, and commercialization.

"PLMA provides an excellent opportunity to connect with retailers looking for unique products that help their frozen category stand out," says Valeria Lytton, VP of Marketing at MIC Food Group®. "We are excited to introduce the United Flavors® private brand packer label and demonstrate how these globally inspired products can bring versatility and added-value to today's frozen aisle."

The company will feature premium Individually Quick Frozen (IQF) products including those from its sweet plantains, cassava, and sweet potato lines, highlighting formats designed for own brand and private brand applications. Visitors will also have the opportunity to discuss pilot programs and custom private brand development opportunities directly with the Inalma and MIC Food Group® teams.

Industry research continues to show strong consumer interest in international flavors, plant-based ingredients, and convenient frozen meal components. Through its manufacturing expertise in Honduras and MIC Food Group®'s sales and market development capabilities, Inalma is uniquely positioned to help retail partners respond to evolving consumer preferences while expanding frozen category performance.

Retailers, distributors, and private brand buyers attending PLMA are invited to meet with the Inalma and MIC Food Group® teams to learn more about the United Flavors® portfolio and future product-development opportunities.

About Inalma
