Cornish Sea Salt & Salt Merchant: Exceptional Sea Salt, Naturally

Hand-harvested just eight metres from the Cornish coastline, **Cornish Sea Salt** is a pure, natural Celtic sea salt sourced directly from the Celtic Sea. Celebrated for its distinctive flavour and provenance. Combining traditional salt-harvesting methods with innovative technology, our salt makers create a premium sea salt that is naturally rich in sea minerals and electrolytes, including magnesium, potassium and calcium.

At the heart of the range are our **Sea Salt Crystals and Flakes**. Crystals offer a satisfying crunch and intense mineral-rich flavour, making them perfect for cooking, baking and marinades. Our delicate Flakes dissolve quickly on the palate, delivering an instant hit of flavour and making them ideal for finishing dishes or using throughout cooking.

Alongside our pure sea salts is a versatile range of **seasoning blends**, where our premium Cornish Sea Salt is carefully combined with gourmet herbs, spices and speciality ingredients. Expertly developed combinations make adding exciting flavour to everyday dishes effortless.

Now sold in **over 38 countries and continuing to grow**, Cornish Sea Salt is trusted by Michelin-starred chefs and used in leading restaurants and professional kitchens around the world.
