FOR IMMEDIATE RELEASE

Stephano Group Showcases Private-Label Breakfast and Snack Solutions

Oat-based products and full-service manufacturing capabilities featured at PLMA 2026

ETOBICOKE, Ontario — Stephano Group Ltd. will showcase its contract and private-label manufacturing capabilities at PLMA 2026. Visitors to Booth F4018 can learn about the company's oat-based breakfast and snack products, including granola, oatmeal, bars, clusters, and functional snacks.

With more than 40 years of experience, Stephano Group serves retailers and foodservice brands with product development and manufacturing services. Its capabilities include formulation for keto, paleo, high-protein, and functional products, supported by in-house research and development, regulatory expertise, and quality assurance laboratories.

The company operates two BRCGS AA-rated facilities in Ontario, Canada, including a dedicated facility for products made without peanuts, tree nuts, gluten, eggs, and dairy. Its certifications include Organic, Non-GMO Project, Gluten-Free, and Kosher.

Stephano Group's manufacturing operations span 10 production lines, with packaging options ranging from pouches to single-serve and multipack formats. These capabilities support customers from product development through production and packaging.

PLMA attendees are invited to visit Booth F4018 to discuss private-label breakfast and snack opportunities with the Stephano Group team.

About Stephano Group

Stephano Group Ltd. is a North American contract and private-label manufacturer specializing in oat-based breakfast and snack products. Based in Ontario, Canada, the company provides product development, regulatory, quality assurance, manufacturing, and packaging support to retailers and foodservice brands.
