Rito Mints Unveils New Product and Packaging Capabilities for 2027

TROIS-RIVIERES, QC — Rito Mints, the premier Canadian-based manufacturer of high-quality mints and confections, is pleased to announce its participation in the upcoming Private Label Manufacturers Association (PLMA) Store Brands Marketplace, taking place at Booth F1005.

The company will showcase its portfolio of mint and conversation heart classics while sharing its new product and packaging capabilities in contract manufacturing and private label candy production.

At the show and looking ahead to 2027, Rito Mints is expanding its offerings with significant new product and packaging capabilities. The manufacturer is introducing a lineup of sugar-free options alongside sophisticated dual-layer confections that seamlessly combine two distinct colors and flavors into a single piece.

To complement these product innovations, Rito has upgraded its packaging infrastructure to support premium tin filling as well as high-speed individual piece wrapping. These individually wrapped pieces are engineered specifically to meet the strict hygienic needs of the food service industry, while simultaneously providing everyday retail consumers with a convenient way to enjoy a bag of mints at home over an extended period.

Prospective retail partners, brokers, and category managers are invited to visit the Rito Mints Booth F1005 to sample the core product lineup and explore new development opportunities.

Meet us at PLMA BOOTH F1005
